---

Good evening,

The attached letter is to notify you that an employee of the Santa Fe Law Offices of the Public Defender has tested positive for the coronavirus. Because our offices work so closely, there is a possibility that others in the community are infected as well. We are working closely with the New Mexico Department of Health to notify those who may have been in close contact with our employee. Please see the attached letter for additional details.

Sincerely,

Julie

**Julie Ann Ball**
